Scott Reed called the meeting to order at 5:30pm.

Hearing of visitors (for concerns not on the agenda)

none

Highway review and discuss drainage problems on Plumb Road:

Discussion: Mr. Sousa complained about the culvert across his driveway heaving and that in the fall rain water has come up and over the culvert and across his driveway. Mr. Janovsky responded that there are 900 road culverts in town (not including driveway culverts) and they all heave. Mr. Janovsky assured Mr. Sousa that Mother Nature is the problem, the culvert is not blocked.

Mr. Sousa showed the group where the ditch along the road higher up the hill veers into his property, saying he feels it is causing some water problems.

The decision of how to handle the complaints are ultimately the Road Commissioner's.

Adjourn

The attendees adjourned at approximately 6:00pm.

Respectfully submitted,
