- Class 3 town highway, paved
- Class 3 town highway, unpaved
- Class 4 town highway
- Legal trail
- Private road
- Parcel line, 2009
- Streams
- Lakes/ponds

Data sources:

- Proposed zoning district boundaries were delineated by the Whitingham Planning Commission in 2013 and 2014. Most boundaries follow roads, road ROW edges, parcel lines, or streams, or are offset a specific distance from these features. GIS data were developed by Windham Regional Commission using road, stream, and parcel data as a base.

- Highway data are from Vt. Agency of Transportation sources (VGIS data layer RDSnnnn). Data were corrected and updated by Windham Regional Commission in 2009 using information provided by the Town of Whitingham, data from Vermont's Enhanced 911 Board, and Vermont digital orthophotos.

- Parcel lines are from GIS data developed by Cartographic Technologies, Inc. (CTI) Brattleboro, Vt. Whitingham's tax maps, at 1:5000 scale, were scanned, vectorized, then updated in 2009 by CTI.

- Surface waters are from the Vermont Hydrography Dataset (VGIS data layer SWnnnnnnn).
