WINTER DRIVING TIPS:

Clean snow and ice from all windows and lights, even hood and roof, before driving.

Leave plenty of room for stopping.

Pay attention and don't try to out drive the conditions. Remember posted speed limits are for dry pavement.

Use common sense while driving near plows.

Remember that the road in front of the plow is usually in much worse condition than the roadway behind the plow. For your safety it is recommended that you stay a safe distance behind the snowplows.

Don't get overconfident in your 4x4 vehicle, it won't help you stop any quicker.

SLOW DOWN AND BUCKLE UP!
